PROFILE

Information Technology graduate (Faculty of Technical Sciences Čačak, 2026) who builds complete, working web applications in JavaScript. My projects range from an offline-first Progressive Web App to real-time full-stack apps and data dashboards, each built from scratch with attention to clean code, accessibility and automated testing. Looking for a first role as a junior frontend or full-stack developer.

SKILLS

Languages	JavaScript (ES2022+), HTML5, CSS3, SQL, Python
Frontend	Progressive Web Apps (Service Worker, Cache API, Web App Manifest), responsive design, accessibility (WCAG 2.1), React, Tailwind CSS, Chart.js
Backend & data	Supabase (PostgreSQL, Auth, Realtime, row-level security), REST APIs, Node.js
Testing & tools	Playwright, node:test, axe-core, Git, GitHub, GitHub Actions, npm, VS Code, Figma

PROJECTS

Knjigoteka – offline-first book discovery PWA — Vanilla JavaScript · Service Worker · Playwright

- Search app for the Open Library catalogue with a personal reading shelf (reading status, ratings, notes, reading statistics), JSON backup, Serbian/English UI and light/dark themes. Started as my bachelor thesis, graded 10/10.
- Service worker with three caching strategies (precache, network-first with timeout, capped cache-first) and a user-confirmed update flow; installable on desktop and mobile and fully usable offline.
- Modular ES-module architecture with no framework or build step; strict Content-Security-Policy and escaping of all external data against XSS.
- 39 unit tests and 32 end-to-end tests on desktop and mobile viewports, including automated accessibility checks and a real offline run; CI pipeline on GitHub Actions.

Blogram – social blog platform — Supabase · PostgreSQL · Auth · Realtime

- Full-stack social blog: email/password accounts, user profiles, publishing with edit and delete, and follows with a personal feed.
- Real-time direct messages; all data secured with PostgreSQL row-level security policies.

FinDash – personal finance dashboard — JavaScript · Chart.js · Supabase

- Tracks income and expenses, category budgets and savings goals, with live cash-flow charts and CSV export.
- Private per-user accounts with cloud sync through Supabase.

EDUCATION

Bachelor's degree in Information Technology — 2022 – 2026

Faculty of Technical Sciences Čačak, University of Kragujevac

Thesis: *Development of a Progressive Web App (PWA) for Searching and Browsing Books Using Modern Client-Side Web Technologies* – grade 10/10

Technical School Čačak – Electronics Technician

LANGUAGES

Serbian – native **English** – professional working proficiency
